REMARKS

Status Summary

Claims 1-50 have been allowed.

Claim 20 is proposed to be amended to correct an inconsistency introduced by the Examiner's Amendment. In particular, in element (b) of claim 20, the first occurrence of session has been changed to "sessions", because the plurality of media processing resources process media packets for plural media sessions. In addition, "the" before "sessions" in element (b) is removed for clarity. Since the amendment does not add any new matter or raise new issues, Applicants respectfully request entry of the amendment indicated above.

CONCLUSION

In light of the above amendments and remarks, it is respectfully submitted that the present application is now in proper condition for issuance.

If any small matter should remain outstanding after the Patent Examiner has had an opportunity to review the above Remarks, the Patent Examiner is respectfully requested to telephone the undersigned patent attorney in order to resolve these matters and avoid the issuance of another Official Action.
